

Service Activated Roadside Assistance (SARA)

A regular service by Ford-trained technicians using Ford-specific tools and Ford Original Parts is the easiest way to keep your Ford really safe to drive and in top condition, as well as maintaining its resale value.

But these aren't the only benefits of taking your Ford for a regular service: every time you have your Ford (up to 9 years old or 150,000 KM*) serviced by a participating Ford Dealer or Authorized Repairer, it will be eligible for roadside assistance throughout Europe* until the next service or 12 months, whichever comes first.

SARA offers benefit such as:

- Roadside assistance and repair
- Towing to a Ford Dealer / Authorized Repairer
- Provision of mobility options

Ford Assistance is available 24 hours a day, all year round, with just one phone call, wherever you are in Europe*.

For more information relating to SARA, please contact your local Ford Dealership.

* Please see separate terms and conditions, also for countries covered
